Corel WordPerfect Office 2000

<https://vetusware.com/download/Corel%20WordPerfect%20Office%202000/?id=17792>

Corel WordPerfect Office 9.x a.k.a Corel WordPerfect Office 2000 for Windows 98/ME. Both installation CD ISO file and Serial Number text file located in the \*.Zip file.

Lunabar 1.10

<https://vetusware.com/download/Lunabar%201.10/?id=17797>

"Places an icon in Windows 95's taskbar displaying the current moon phase and age. Click to open a full lunar almanack displaying phase; rising, southing, and setting times, the constellation & signe of the moon, and more." (Shareware)

Roland Virtual Sound Canvas v3.2

<https://vetusware.com/download/Roland%20Virtual%20Sound%20Canvas%20v3.2/?id=17791>

Software synth for Windows 98/XP: Virtual MIDI synth providing General MIDI 2 and Roland GS sound compatibility. Unlike the default Windows MIDI sound set, this software has the ability to add reverb and chorus effects to MIDI tracks (via included dedicated midi player or most MIDI software sequencers), vastly improving the sound of midi (\*.mid) files. This program also runs and has been tested on a virtual Windows XP system running on VirtualBox on a Windows 10 Host system (my preferred OS for running the software).
