ISO files, "adobe-acrobat-3.01.iso," "adobe-acrobat-reader-3.01.iso" and serial.txt file located in the *.zip file. Installed and run successfully on a virtual Windows 3.1 system in DosBox-X under a Windows 10 host.

Civilization 2

.cue/.bin CD Image located in the *.zip file. Tried and tested on a virtual Windows 3.11 system running on Dosbox-X on a Windows 10 Host. Should probably work on a genuine vintage Windows 3.x system. In-game text may appear garbled on Windows 3.1, the solution of which is to go to "fonts" options in windows fonts options and disabling "TrueType" fonts. Remember to re-enable after playing. Instructions also in "Readme.txt" in the "*.zip." file
