Paint Shop Pro X

<https://vetusware.com/download/Paint%20Shop%20Pro%20X/?id=17831>

Tried and tested on a virtual Windows XP (SP3) system, running on VirtualBox under a Windows 10 Host system. Should probably also work on genuine vintage hardware natively running Windows XP SP3. CD *.iso image, "COREL_PSP_X.iso" and serial number (text file) are located in the downloadable *.zip file.
