DataPerfect 2.0

<https://vetusware.com/download/DataPerfect%202.0/?id=17860>

DataPerfect is a simple database environment sold as an interoperable companion to WordPerfect. It is easy enough that one person can implement a database themselves, and features a built in form builder. But it is not incredibly friendly, as the user interface is designed to appeal to mainly to existing WordPerfect users. Archive includes two 5.25" 360k floppy disk images and one 3.5" 720k floppy disk image.
