Batch Menu

<http://vetusware.com/download/Batch%20Menu/?id=12498>

Not a program, excellent DOS menu batch files. Howto with examples for you to adapt.

<http://server.carleton.ca/~dmcfet/menu.html> (accessed on january 2016)

CAL 'Confusion and Light' 4.00

<http://vetusware.com/download/CAL%20Confusion%20and%20Light%204.00/?id=12499>

Maths/Fractals. "This program draws a large number of "fractals" which has appeared in popular mathematics literature. Known for the quickness of the drawing of the Mandelbrot set." (Free)

Eureka 1

<http://vetusware.com/download/Eureka%201/?id=12495>

A math equation plotting program, allowing you to enter a natural math equation. Great at the time

uHEX 1.0

<http://vetusware.com/download/uHEX%201.0/?id=12497>

Nice and fast free hex viewer (not abandonware, I know). Search Sourceforge for later version.
