LEGO Creator DEMO

<https://vetusware.com/download/LEGO%20Creator%20DEMO/?id=18611>

LEGO Creator supplies you with an infinite amount of building blocks. You can build whatever you like in this sandbox game. Any non-standard blocks all have a city theme, so you are best off building streets, buildings, cars, etc. You can create and assign LEGO puppets to houses and you can crawl inside the skin of any puppet to inspect your newly build city through their eyes, or take a spin in your custom build race car. The game comes with a wide array of prefab buildings and vehicles. Whenever you've built something you do not like you can destroy it with special destructa-bricks.

LEGO Friends DEMO

<https://vetusware.com/download/LEGO%20Friends%20DEMO/?id=18610>

You're the manager for "Tuff Stuff", an all-girl band practicing to win the high school music competition. You can create your own music, stage lighting and dance routines. Comes with a printable scrapbook and an interview with the Loose Chippins, an all-girl British pop band.

LEGO LOCO DEMO

<https://vetusware.com/download/LEGO%20LOCO%20DEMO/?id=18612>

In Lego Loco, you build and design a town with lego buildings, and then build railroads to transport the people. You can also build roads so people can use their cars. You get to choose where everything goes and you can also pick people up and move them around. Another feature is the ability to send postcards over the Internet to other players. You can play on your own or play multiplayer.

LEGO Racers DEMO

<https://vetusware.com/download/LEGO%20Racers%20DEMO/?id=18609>

For the first time, build your favourite Lego carts on your PC using all of the blocks that are available in real life, thanks to the detailed Creation modes. You can then race your beast against other lego built characters in 12 special themed tracks, based on the Themed Lego kits (including Pirates & Egypt and much more). Race your friend in split screen mode, or go straight on for the ultimate Lego racing trophy.
