Chua Me O!  
Jesus!

Well I'd figure the rest of my programming career is downhill so I'm putting all my new stuffs in here. The "Miscellaneous" section is for DOS LINH TINH. It's not meant to be important, however, people even myself have come across items of interest.

hehe

As you wish \*I think\* a more updated version is out for Turtle Mom. This version tries to eliminate the glitches. It still glitches however it seems not as often? In any case you have a few options. There is a cheat mode that gets you to the next level if there is some glitch. Press zero first then the level number you want second will teleport you to that level.

Well it's all my fault!!!!!!!!!!!!!! Yes, I admit it. I never graduated from school. I tried to get my high school diploma once. I tried to get a college degree. I tried to get an official certification. However I never graduated so what you get from my software is what you get. I'm sorry I'm not Microsoft. I'm sorry I'm not these perfect programming software companies with billionaires on their boards.

Well since my parents raised me up all my life I have to give my mother Huong Thi Thuyen Vu the blessing! Also I have to give both my father Nguyen Binh Thuy and my mom the honours too. So here is my hardwork.

Dear Sir/Maam,

Here are 8 full levels you can play. I have made it to be fun and enjoyable to the best of my knowledge. The random generator does not seem to be working so these are ones that I made for the "mazes".

I'm sorry ahead of time for any glitches. Thank you for your support.

Sincerely,

Tien Khoa Nguyen

Just some novelty for myself and my family. I was dazing at my workdesk in my studyroom and I heard what seems to be God telling me I need to honour my two real parents. So I eventually came out with this software.
