### IBM Direct Talk for Windows 3.0

<http://vetuware.com/download/IBM%20Direct%20Talk%20for%20Windows%203.0/?id=12844>

Using the DirectTalk family of products lets you run voice applications that benefit your business by giving your customers access to your services using what is still the most widely-used communications technology: the telephone. It's all about improving customer service and productivity. DirectTalk is proven voice response technology: v It's been used throughout the industry for over 10 years. v 100 000 ports have been sold worldwide. v It's scalable from four to more than 1000 ports. v It's tested and approved for attachment to telephone networks and PABX switches worldwide. v It conforms to industry standards v It offers you a choice of platforms on which to use it: Windows, AIX, and OS/2. v It provides powerful and flexible application development using either platform-specific technologies or JavaBeans for platform independence.

### VCDCutter for Win98/NT 4.04

<http://vetuware.com/download/VCDCutter%20for%20Win98NT%204.04/?id=12846>

VCDCutter is a MPEG,VCD and Movie Player. This version can play MPG,VCD,or other movie files(such as MPG,DAT,AVI,MOV). Very friendly and menu driven with full featured control with movie file. VCDCutter can extract MPG,frame from VCD or MPG file, cutting your favourite part or whole MPG file to disk when playing(now can extract system stream,or video,audio stream only).

Some features of VCDCutter: . Optimized performance for Win95/Win98/WinME/NT/Win2000. . Support mostly movie format playing (AVI,MPG,MPEG,DAT,WAV,MOV,M1V,MPV). . Many options to fully control the playing operation. . You can import/export play list or clip list. . Support movie files Drag/Drop operation. . Cut mpg clips to disk, and save them as mpg (video&audio),m1v (video only),or mp3 (audio only) files. supported streams include: mpg system stream(MPG), video only stream(M1V), or audio only stream(MP3). . Divide big MPG stream in to multi-smaller parts. . Split MPG system stream(mpg) into them component(m1v,mp3). . Mplex mpeg video(m1v) and mpeg audio(mp3) into system stream(mpg). . Converter: AVI => MPG. . You can cut some clips, and then join them into one clip file. . You can extract frames to disk when you are playing. support extract 4 frames into one big frame. . Fully control the playback quality and performance. . You can scale the movie size. . You can control the playing speed in range 0.1X~10.X. Requirements to run VCDCutter ===== VCDCutter needs run under Win95(OSR2 or later)/Win98/WinME/NT4.0(build 1381 SP3 or later)/Win2000 with DirectX Media (5.x or later) Runtime(DXM), Please insure that you have installed DXM. we recommend that you download and install a copy DXM Runtime which acts as an efficient video accelerator and audio driver for VCDCutter. It's possible that you may already have DXM Runtime on your computer so to avoid an unnecessary re-installation. you can let VCDCutter to detect whether you have DXM Runtime installed on your system. You can load a movie, then play it - if you get no warning message then it's already installed. Otherwise, you need down load DXM from here:

<http://www.microsoft.com/directx/default.asp> Notice: this URL may changed by microsoft, if you can't locate DXM, you can contact us([jiaosw@mail.njust.edu.cn](mailto:jiaosw@mail.njust.edu.cn)) for newer URL. If you have installed Win98/ME that means you already have DXM component on your computer. Currently My computer's OS is Win95(version:OSR2), and in order to make VCDCutter working I have installed IE4.01 and DXM. For question or problem, please contact author: Web:
