Matlab 3.5 1.0

<http://vetuware.com/download/Matlab%203.5%201.0/?id=12867>

MatLab is a utility for manipulating, calculating, and plotting complicated mathematical equations.

VP-Expert 2.01

<http://vetuware.com/download/VP-Expert%202.01/?id=12860>

Included in this archive is Paperback Software's VP Expert, an expert system from the 1980s, on two 360k disks; program files (release date 10/88) and sample files with the same release date. VP-Expert was a low-cost solution that competed against products such as 1st-Class Fusion, Knowledgepro, Level 5, and Personal Consultant Easy. It provides rule induction, traditional structured rule programming, backwards and forward chaining, and hypertext and mouse support in graphics mode. There does not appear to be any copy protection. Archive contains two 360k images in raw (WinImage) and SuperCard Pro formats.

VP-Expert 2.10

<http://vetuware.com/download/VP-Expert%202.10/?id=12861>

Paperback Software's VP Expert is an expert system from the 1980s. Includes two 360k disks: program files and sample files. VP-Expert was a low-cost solution that competed against products such as 1st-Class Fusion, Knowledgepro, Level 5, and Personal Consultant Easy. It provides rule induction, traditional structured rule programming, backwards and forward chaining, and hypertext and mouse support in graphics mode.

VP-Info 4.22

<http://vetuware.com/download/VP-Info%204.22/?id=12862>

Included in this archive is Paperback Software's VP Info, a dBase-type relational database manager with compiler from the 1980s, on three 360k disks; program files (version 4.22) on disk 1, utilities and help files on disk 2, sample files from v.1.4. VP-Info features the ability to use common dBase/Clipper file formats with an unlimited number of records, and a built-in compiler. There does not appear to be any copy protection. Archive contains three 360k images in raw (WinImage) and SuperCard Pro formats.

VP-Planner 1.35

<http://vetuware.com/download/VP-Planner%201.35/?id=12864>

VP Planner is a Lotus 123-type spreadsheet, but featuring 3-D (paged) spreadsheets and other advances over Lotus 123. This was the subject of a lawsuit which Paperback Software eventually won, but which sank the company. This version is NOT copy protected. Archive contains two 360k images in raw (WinImage) and SuperCard Pro formats.

VP-Planner 1.00 1.00

<http://vetuware.com/download/VP-Planner%201.00%201.00/?id=12863>

VP Planner is a Lotus 123-type spreadsheet, but featuring 3-D (paged) spreadsheets and other advances over Lotus 123. This was the subject of a lawsuit which Paperback Software eventually won, but which sank the company. IMPORTANT: Version 1.00 is copy-protected and requires the distribution disk to be in a 5.25 inch drive, but a subsequent update removed the copy

protection. No unprotect is included. The extracted files in the "files" folder will not run without an original floppy disk in the A: drive. It is also not possible to create functional "raw" sector images for these disks. You must write the included TransCopy or SuperCard Pro images to a floppy, or use the TransCopy images with an emulator such as PCE. (Use the HxC disk tools to convert to Kryoflux format)
