Home-Office Writer 1987

<http://vetusware.com/download/Home-Office%20Writer%201987/?id=11759>

"Home-Office Writer is a word processor with the right balance of professional business features and easy to use design." This software has a copyright date of "1983, 84" and a time stamp of 1985. This appears to be a later 1987 re-release with extra letter templates. There was also a version for the C64. Contains one 180K (SSDD 5.25") floppy disk image.
