iWheelWorks 2001-06-13

<http://vetware.com/download/iWheelWorks%202001-06-13/?id=13114>

A driver for A4Tech iWheelWorks PS2/serial USB mice. Contains Windows 9x and DOS driver. Might work with generic PS2/serial/USB scroll wheel mices. USB support available on Win98 and higher. PS2 and serial mice are supported on Win 95. Backed up from the driver floppy disk.

Microsoft Intellipoint 4.12 4.12

<http://vetware.com/download/Microsoft%20Intellipoint%204.12%204.12/?id=13113>

Microsoft IntelliPoint 4.12 for Win9x. Supports Windows 95 and higher. Also, brings mouse scroll support to Windows 95 for IntelliPoint compatible mices.

MouseMate 98

<http://vetware.com/download/MouseMate%2098/?id=13115>

Genius MouseMate98 driver package for Window NT 4.x/95/98 and DOS. Supports scroll wheel (also under Win95).

Namo Web Editor 3.0

<http://vetware.com/download/Namo%20Web%20Editor%203.0/?id=13108>

A powerful HTML and ASP editor, simple as a word processor. During the installation, a serial number and an activation code are required. See the file Nano3-Serial.txt.

StarOffice 3.1

<http://vetware.com/download/StarOffice%203.1/?id=13129>

StarOffice is a package of standard office applications including word processor, spreadsheet calculator and presentation software. StarOffice was later bought by Sun and open-sourced under name "OpenOffice.org". There was also a commercial version that kept the name StarOffice and was based on OpenOffice.org code base. This is a version 3.1 for Windows 95/NT.
