Breadbox Ensemble 4.1.2
http://vetusware.com/download/Breadbox%20Ensemble%204.1.2/?id=13179
Breadbox Ensemble was an office suite for DOS with a Windows 95-like user interface. It was based on GeoWorks and New Deal Office. This is the full version. Breadbox sold it for quite a while but is no longer in business.

Lion 1.0
http://vetusware.com/download/Lion%201.0/?id=13181
Lion is an animal simulation game where the player plays the role of a lion.   The gameplay is divided into two parts. The first is a sandbox simulation mode, where the player has no predetermined goal. The second is a scenario mode, where the player has to complete specific actions; this is comparable to quests given in RPGs.

Wolf 1.0
http://vetusware.com/download/Wolf%201.0/?id=13180
Wolf is a life simulation game where the player takes the role of a wolf. The gameplay is divided into two parts. The first is a sandbox mode, where the player has no predetermined goal. The second is a scenario mode, where the player has to complete specific actions; this is comparable to quests given in RPGs.
